OAKLEY META

Meta AI

Athletes have questions. Meta AI has answers. Meta AI helps athletes get the most out of every moment. With "Hey Meta" or just a tap, get answers during practice, check tides en route or discover local hikes – all hands-free. From getting ready to getting out there, Meta AI helps you take every aspect of your game to the max.

Hands-free capture

Capture the action as it happens with Oakley Meta hands-free 12 MP camera. Take videos or photos from your unique POV to get all of your highlights. With just a "Hey Meta" or a tap, you can always get the shot. From epic hikes to casual hangouts, you'll never miss a moment.

Immersive audio

The open-ear design of Oakley Meta lets you enjoy your favorite music with speakers built straight into the frames. Listen to Spotify, Apple Music and more with just a "Hey Meta" or a tap. Queue up your favorite playlist, podcast and more, hands-free.

Hands-free communication

Stay connected like never before with Oakley Meta. Take a call straight from your glasses. Send and receive text and voice messages hands-free. The speakers feature an open-ear design, so you can stay engaged on your call without losing touch with the world around you. You can even video call and share your unique POV, thanks to the built-in camera.

Meta AI app

Manage your Oakley Meta glasses and customize settings, import and share photos, and interact with the Meta AI assistant on both your glasses and the app. Learn about new features and see how others are getting the most out of Meta AI through the Discover feed.
The Meta AI app (formerly known as the Meta View app) is required to support your glasses experience.

Download the Meta AI app:
Apple App Store | Google Play app store

Charging case

Each pair of Oakley Meta glasses comes with a charging case that can provide up to 48 hours of charging on the go. The case can be fully charged in 3.5 hours using a USB-C cable.
