**RE: Winchester Ranger Firearm Notice**

Dear Bass Pro Shops Customer,

During a routine quality check of our newly-released Winchester Ranger 22 LR rimfire rifle, we discovered that a limited number of rifles from an early production run may have a part that is out of tolerance, which could potentially create a safety concern. Our intention is to facilitate the return of each of the subject rifles to Winchester Repeating Arms for inspection. Our records indicate that you recently purchased a Ranger rifle from your local Bass Pro Shops retail store, which will unfortunately need to be inspected in Winchester Repeating Arms' service facility.

For all details regarding how to return your rifle for inspection, free of charge of course, we respectfully request that you immediately contact us at the below email address or toll-free phone number. Please include the serial number of your Ranger rifle in all communications with us.

**Email: [Ranger22@winchesterguns.com](mailto:Ranger22@winchesterguns.com) or Phone: 1-800-333-3288**

All of us at Winchester Repeating Arms understand how inconvenient this is for you to return your new Ranger firearm, and for that we sincerely apologize. We also want to express our appreciation in advance for your assistance in our efforts to locate and inspect each and every rifle that may be affected. As a small token of our appreciation, included with our prompt return of your Ranger firearm, you will receive a free Winchester Stag Stockman Combo Knife Tin.

If you have any additional questions regarding this notice, please contact us at the above email address or phone number.
